**What is disc golf?** Disc golf is played much like traditional golf. Instead of a ball and clubs, however, players use a flying plastic disc. The sport was formalized in the 1970's, and shares with "ball golf" the object of completing each hole in the fewest number of strokes, or throws. A golf disc is thrown from a tee area to a target, which most commonly a metal basket with chains that catch the disc. Disc golf shares the same joys and frustrations of traditional "ball golf", whether it's sinking a long putt or hitting a tree halfway down the fairway. Disc golf is designed to be enjoyed by people of all ages old and young, male and female, regardless of economic status or physical ability.

The Colorado Disc Sports Association is a member supported, volunteer non-profit organization devoted to supporting, enhancing and promoting disc sports activities in Colorado, celebrating it's 20<sup>th</sup> anniversary this year. Specializing in disc golf, the CDSA runs a points-series of quality, statewide, annual tournaments for our members, called the Thin Air Tour. We have over 80 courses here in the state of Colorado and an active tournament schedule. According to the Professional Disc Golf Association, three to five million people have played disc golf on nearly 900 disc golf courses worldwide.
